

Special pieces for tundish and Isostatic products

Created in 2009, Trasteel Group has become one of the leading players in the steel industry

Trasteel Group was founded in 2009 as the result of the vision of a group of entrepreneurs and professionals with 40 years of international experience in the steel industry.

Today, Trasteel is a trading and industrial Group active in the steel, energy and metallurgical sectors. Headquartered in Lugano, it has over 900 employees operating in four trading desks and various industrial plants in Europe, Middle East and Asia-Pacific.

ABOUT OUR ESG VISION

Leveraging on the combined experience, the mission of the Group is to provide better, deeper and more flexible services to the whole supply chain.

Since the high quality of the supplied materials is not enough to meet the evermore sophisticated needs of the market, Trasteel Group keeps expanding its horizons by maintaining high dynamism and diversification.

Sustainability and innovation are priorities and key aspects for the Group to focus on. Long-term targets are not an easy challenge to face, but Trasteel is committed to broaden its ESG policies.

EU, United Kingdom, Turkey, Israel, Serbia, Ukraine, Kazakhstan, Uzbekistan, Azerbaijan, U.A.E., Saudi Arabia, Oman, Brazil, Chile, Colombia, Argentina, Perù, Bolivia, Mexico, USA, Canada, Japan, South Korea, China, Malaysia, Indonesia, Philippines, Vietnam, Thailand, Taiwan, Australia, South Africa, Congo (DRC), Egypt, India, Algeria, Morocco, Tunisia, Pakistan, Norway

Our Isostatic products

Trasteel has a partnership with an important producer of isostatic refractories for casting bricks. The facility integrates production and research and is able to produce different types and sizes with a capacity of about 60'000 pcs per year.

Trasteel has a pluriannual experience in this production and a team of engineers that study continuous improvements on the products in order to achieve the best process oriented solutions.

Why is Trasteel different?

Customised solutions

Our technical team can study and propose the best materials and designs for every customer needs

Reliable materials

Trasteel assures best raw materials, production methods and quality control, for assured performances.

Competitive prices

Reduced fix costs, direct purchase of raw materials and modern plants assures the best prices.

Solutions details

L/S-Ladle shrouds

Trasteel can provide different solutions, custom designed in order to meet best clients expectations and to afford the most critical working conditions.

Properties and Characteristics

- optimum cold starting attitude without pre-heating
- best preservation against oxidation
- customized head housing for a perfect connection to the collecting nozzle

MBS – Monoblock stoppers

Trasteel can provide stoppers on the base of applications and customer needs.

Properties and Characteristics

- different sizes and diameter up to 2000mm high
- possibility of inert argon gas purging system
- maximization of expected casting time

SES&SEN – Sub-Entry Shrouds & Sub-Entry Nozzles

Trasteel can provide products on the base of customer specifications or supply tailored items based on customer needs.

Properties and Characteristics

- protection of steel flow from air contact
- fluid dynamics control in the mold thanks to output geometry optimization

Preshaped pieces

Trasteel can provide different custom tailored solutions in order to find customer expectations.
